

An Introduction to Brilliant Engineering Company

Brilliant Engineering

HVAC. DUCT WORK. FILTRATION

Who We Are

Brilliant Engineering Co. is an engineering services contractor company, founded in 2009 by Eng. Ayman Gaber, we have been active in the HVAC field in Egypt for over 7 years as we are committed to provide the best quality and services in all sectors within the HVAC field and we are delighted to have accomplished satisfactory results.

Our Scope Of Work:

Industrial Ventilation Systems

Industrial Air Filtration Systems

Central Air Conditioning Systems

Industrial Environmental Treatment

Duct Work Systems

What We Do

We provide engineering services from Turn-key Projects, maintenance, designs, after-sales services, TAB services and on-site training of equipment as well as distributing several spare-parts throughout the country.

Our Mission

Our services contribute in utilizing the following:

Ensuring the circulation of purified air

Ensuring a healthy working environment

Prevention from fire & explosions

Ensuring that international safety codes are satisfied

Hence minimizing employees' absenteeism while increasing the level of overall productivity and overall staff's satisfaction.

“It is our pleasure to offer Engineering services at your door to create a permanent positive change within the working atmosphere.”

Ayman Gaber
