

About Us

Brilliant Engineering Co. is a General Contracting Company, specialized in Turnkey Projects: both Commercial and Large Industrial Manufacturing Facilities. Brilliant Engineering Co. was founded in 2009 by Eng. Ayman Gaber, only to become one of the Leading Full Engineering Services Providers in Egypt, with an outstanding portfolio of expertise in Construction and MEP fields, serving and completing projects in various regions all around the country.

Our Mission

We, at Brilliant Engineering, believe in Change being the foundation stone of developing the community. We also understand the extremely challenging nature of developing market, And we are parallelly aware of how promising it is too. In our pursuit to achieve maximum efficiency, we take active steps to obtain both the reliability and the malleability essential to function in this ever-shifting industry, and in the process, we do our best to provide the most sustainable solutions for our society

Our Services :

- General Contracting
- HVAC
- MEP

We specialize in providing products :

- Air Conditioning
- Ventilation system
- Air Curtains
- Ducts - Panels
- Evaporative Coolers
- Dust Collector
- Industrial Vacuum Cleaners

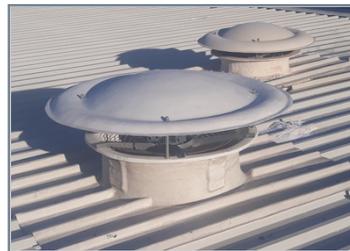

Air Conditioning

BlueBox was created in 1986 in North-East Italy, the heart of an industrial area specialized in the cooling business, and quickly gained an important market share becoming one of the top ten European companies in the industry of Commercial/Industrial Chillers and Heat pumps by offering innovative and highly efficient products, which have been patented and later adopted as the standard in the market. Swegon Operations promotes its products and solutions today through a worldwide network of Owned Sales Companies and selected sales partners able to transfer our values to our customers

Ventilation system

HasconWing

BVN

- Duct fans
- Roof fans
- Wall Fans
- Radial Fans
- Smoke Fans
- Plastic Fans

Air Curtains

• COMMERCIAL (GUARD)

GUARD air curtains have an efficient ventilator combined with a build-in three-step motor along with two-row coils that give an optimized range of parameters. High-performance parameters – air output 4800 m³/h, air throw up to 4 m.

size :1 m - 1.5 m - 2 m

• INDUSTRIAL (GUARD Pro)

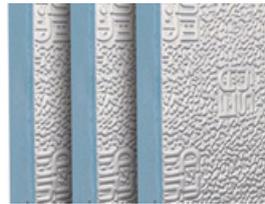

GUARDPRO is a line of professional and effective devices/products purposed for protecting industrial premises from the loss of heat energy through gateway (vehicle) ranging from 4-7,5 m thanks to high efficiency and applying modular construction.

size : 1.5 m - 2 m
